***Examiner's Amendment***

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification

p. 1 in the cross-references to related applications, "additionally, Applicants claim the right of priority under 35 U.S.C. § 119(a)-(d) based on patent application No. 00830058.4, filed January 28, 2000, in the European Patent Office;" and "; the contents of all of which are relied upon and incorporated by reference" have been deleted in order to eliminate new matter and the improper cross-reference to the foreign priority document in the specification (incorporation-by-reference statement is new matter because 1) the preliminary amendment was not specifically referred to in the signed oath or declaration filed with the specification and 2) the change to 37 CFR 1.115(a) requiring preliminary amendments filed the same day as the application to be part of the original disclosure only applies to applications filed on or after September 21, 2004).

In the claims

Non-elected invention claims 21-25 have been REJOINED because claim 17 from which they depend is now allowable.

***Terminal Disclaimer***

2. The terminal disclaimer filed on March 23, 2005 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent No. 6,457,504 has been reviewed and is accepted. The terminal disclaimer has been recorded.
